ADDRESS REPLY TO 162 REMSEN ST.

American Numismatic Society,
Broadway and 156th Streets,
New York City, N.Y.

Att. Mr. Woodr.

I am attaching hereto an old coin which has been handed down to me and which I understand was once part of John Henry's collection of coins. I understand that John Henry invented the Winchester rifle. Mr Zerne of the Chase National Bank believes this coin to be a counterfeit, but this seems hardly possible to me as the ones Mr Zerne has are copper. I would really like to know what this coin is and it's value, if any.

(over)

You may communicate with my at the above office any time during the daytime. The telephone number is TRIANGLE 5-8300 — If you prefer you may write and I will be glad to reimburse you for any postage —, etc. —

Very truly yours

James L. Carpenter

March 15, 1935.

Mr. James L. Carpenter
Realty Associates, Inc.
162 Remsen Street
Brooklyn, N. Y.

Dear Sir:

I am herewith returning the Egyptian coin. It is a cast, apparently in silver made from a genuine copper coin. As I told you over the phone this and pieces like it were probably made in Egypt by some local silversmith to sell to tourists as a very rare coin. The piece as it is has no value, except for the silver that might be in it.

Very truly yours,

HW:JG
